

## Laser Distance Meter 40m TMP

Art. number: **261400**

Barcode: **3800123164804**

- ✓ LCD display
- ✓ Height, length measurement
- ✓ Area and volume calculation
- ✓ Indirect measurement mode using the Pythagorean theorem

### TECHNICAL FEATURES

| Parameter                                    | Measure Unit | Value           |
|--|--------------|-----------------|
| Automatic laser shut down                    | sec          | 20              |
| Automatic device shut down                   | sec          | 150             |
| Automatic shut down in ~ 5 min               |              | YES             |
| Battery                                      | V            | 1.5             |
| Laser type                                   |              | 635nm<1mW       |
| Dimensions                                   | mm           | 118x54x28       |
| Protection class                             |              | IP54            |
| Sound buttons                                |              | YES             |
| Maximum scanning depth                       | m            | 40              |
| Lcd display lighting                         |              | YES             |
| Operating temperature                        | °C           | 0 - 40          |
| Minumum / maximum value                      |              | YES             |
| Volume measurement function                  |              | YES             |
| Area measurement function                    |              | YES             |
| Pythagorean proposition measurement function |              | YES             |
| Addition & subtraction measurement function  |              | YES             |
| Maximum storage                              |              | 99 Measurements |
| Storage temperature range                    | °C           | -20 - 60        |
| Rated voltage type                           |              | Battery         |
| Measuring accuracy                           | mm           | 1.5 +/-         |
